

*From Berlin...*

"Hoffmann Dental Manufaktur is a family-owned boutique manufacturer and pioneer of the German dental industry.

The first reliable dental cement has been invented more than 120 years ago by company founder Dr. Otto Hoffmann in 1892: Zinc phosphate cement. Hoffmann's cement is used 40,000 times a day in over 50 countries. All products are manufactured by skilled personnel according to proven formulations at the manufactory in Berlin.

Hoffmann's Cements have been recently re-registered with FDA. Together with our partner in the USA **Tenrex** we combine more than 200 years of experience in cements. "

## MEET US AT THE 148<sup>th</sup> CHICAGO MIDWINTER MEETING

Please contact us via email in order to arrange a meeting to find out more about our products.
